

[Bracketed/Underscored Material] - New  
[Bracketed/Strikethrough Material] - Deletion

1 This Article 10 of Chapter 5 of the Revised Ordinances of Albuquerque may  
2 be cited as the “Small Wireless Facility Ordinance.”

3 § 5-10-2 Purpose and Intent

4 (A) Purpose. The purpose of this Article is to establish policies and  
5 procedures for the placement of small wireless facilities in rights-of-way  
6 within the City’s jurisdiction, which will provide public benefit consistent with  
7 the preservation of the integrity, safe usage, and visual qualities of the City  
8 rights-of-way and the City as a whole.

9 (B) Intent. In enacting this Article, the City is establishing uniform  
10 standards to address the placement of small wireless facilities in the rights-of-  
11 way, including without limitation, to:

12 (1) prevent interference with the use of streets, sidewalks, alleys,  
13 parkways and other public ways and places;

14 (2) prevent the creation of visual and physical obstructions and  
15 other conditions that are hazardous to vehicular and pedestrian traffic;

16 (3) prevent interference with the facilities and operations of  
17 facilities lawfully located in rights-of-way or public property;

18 (4) protect against environmental damage, including damage to  
19 trees;

20 (5) preserve the character of the neighborhoods in which facilities  
21 are installed; and

22 (6) facilitate rapid deployment of small wireless facilities to  
23 provide the benefits of advanced wireless services.

24 (C) Conflicts with Other Chapters. This Article supersedes all Chapters  
25 or parts of Chapters of the revised ordinances of Albuquerque adopted prior  
26 hereto that are in conflict herewith, to the extent of such conflict.

27 § 5-10-3 Definitions

28 (A) “antenna” means communications equipment that transmits or  
29 receives electromagnetic radio frequency signals and that is used to provide  
30 wireless services and any comingled information services;

31 (B) “applicable codes” means uniform building, fire, electrical, plumbing  
32 or mechanical codes adopted by a recognized national code organization and  
33 enacted by the City, including the local amendments to those codes enacted

**[Bracketed/Underscored Material] - New  
[Bracketed/Strikethrough Material] - Deletion**

1 by the authority solely to address imminent threats of destruction of property  
2 or injury to persons, to the extent that those amendments are consistent with  
3 state and federal law;

4 (C) “applicant” means a wireless provider that submits an application;

5 (D) “application” means a request submitted by an applicant to the City  
6 for a permit to collocate one or more small wireless facilities on a pre-existing  
7 or modified pole or structure or to approve the installation, modification or  
8 replacement of a utility pole or wireless support structure for purposes of a  
9 small wireless facility installation;

10 (E) “authority” means the City of Albuquerque;

11 (F) “authority utility pole” means a utility pole, owned or operated by the  
12 City in a right of way;

13 (G) “collocate” means to install, mount, maintain, modify, operate or  
14 replace one or more wireless facilities on, in or adjacent to a pre-existing or  
15 modified wireless support structure or utility pole;

16 (H) “communications services” means cable service as defined in 47  
17 U.S.C. Section 522(6), information service as defined in 47 U.S.C. Section  
18 153(24), mobile service as defined in 47 U.S.C. Section 153(33),  
19 telecommunications services as defined in 47 U.S.C. Section 153(53) or  
20 wireless service other than mobile service;

21 (I) “design district” means an area zoned or otherwise designated by  
22 municipal ordinance and for which a municipality maintains and uniformly  
23 enforces unique design and aesthetic standards;

24 (J) “fee” means a one-time charge;

25 (K) “historic district” means a group of buildings, properties or sites that  
26 fall within the category defined in 47 C.F.R. 1.1307(a)(4) and are: (a) listed in  
27 the national register of historic places or formally determined eligible for  
28 listing in that register by the keeper of the register in accordance with the  
29 nationwide programmatic agreement found in 47 C.F. R. Part 1 Appendix C; or  
30 (b) designated as a historic district by the City;

31 (L) “law” includes federal, state or local law;

32 (M) “permit” means the written permission of the City for a wireless  
33 provider to install, mount, maintain, modify, operate or replace a utility pole for

1 the installation of a small wireless facility or to collocate a small wireless  
2 facility on a pre-existing or modified utility pole or wireless support structure;

3 (N) "person":

4 (1) means an individual, corporation, limited liability company,  
5 partnership, association, trust or other entity or organization; and

6 (2) includes the City;

7 (O) "private easement" means an easement or other real property right  
8 given for the benefit of the grantee of the easement and the grantee's  
9 successors and assigns;

10 (P) "rate" means a recurring charge;

11 (Q) "right of way":

12 (1) means the area on, below or above a public roadway, highway,  
13 street, sidewalk (only as defined by the Traffic Code), alley or utility easement;  
14 and

15 (2) does not include the area on, below or above:

16 (a) a federal interstate highway;

17 (b) a state highway or route under the jurisdiction of the  
18 department of transportation;

19 (c) a private easement;

20 (d) a utility easement that does not authorize the  
21 deployment sought by a wireless provider; or

22 (e) any other City owned property not expressly included in  
23 subparagraph Q(1), above, such as but not limited to parks, open space, city  
24 facilities, bike paths as defined by the Traffic Code or multi-use trails as  
25 defined by the Integrated Development Ordinance (IDO).

26 (R) "small wireless facility" means a wireless facility that meets each of  
27 the following conditions:

28 (1) Each antenna associated with the deployment is no more than  
29 three cubic feet in volume, or could fit, inside an enclosure with a volume of  
30 three or fewer cubic feet; and

31 (2) It is mounted on a structure fifty feet or less in height  
32 including its antennas, or on structures no more than ten percent taller than

1 any adjacent utility pole, wireless support structure, or electric transmission  
2 structure; and

3 (3) Its deployment does not require the extension or replacement  
4 of any existing structures to a height of more than fifty feet, or by more than  
5 ten percent taller than any adjacent utility pole, wireless support structure, or  
6 electric transmission structure, whichever is greater; and

7 (4) Its ground or pole-mounted wireless equipment is twenty-eight  
8 or fewer cubic feet in volume; and

9 (5) It is in all respects in compliance with federal regulations  
10 including those at 47 C.F.R. § 1.6002.

11 (S) “technically feasible” means that by virtue of engineering or  
12 spectrum usage the proposed placement for a small wireless facility, its  
13 design, or site location can be implemented without a reduction in the  
14 functionality of the small wireless facility.

15 (T) “utility pole”:

16 (1) means a pole or similar structure used in whole or in part for  
17 communications services, electricity distribution, lighting or traffic signals;  
18 and

19 (2) does not include a wireless support structure or electric  
20 transmission structure;

21 (U) “wireless facility”;

22 (1) means equipment at a fixed location that enables wireless  
23 communications between user equipment and communications network,  
24 including:

25 (a) equipment associated with wireless communications;

26 and

27 (b) radio transceivers, antennas, coaxial or fiber-optic  
28 cables, regular and backup power supplies and comparable equipment,  
29 regardless of technological configuration;

30 (2) includes a small wireless facility; and

31 (3) does not include:

32 (a) the structure or improvements on, under or within which  
33 the equipment is collocated;

1                   **(b) a wireline backhaul facility, coaxial cable or fiber-optic**  
2 **cable between wireless support structures or utility poles; or**

3                   **(c) coaxial or fiber-optic cable otherwise not immediately**  
4 **adjacent to, or directly associated with, an antenna;**

5           **(V) “wireless infrastructure provider” means a person, other than a**  
6 **wireless services provider, that may provide telecommunications service in**  
7 **New Mexico and that builds or installs wireless communications transmission**  
8 **equipment, wireless facilities’ utility poles or wireless support structures;**

9           **(W) “wireless provider” means a wireless infrastructure provider or**  
10 **wireless services provider;**

11           **(X) “wireless services” means services provided to the public that use**  
12 **licensed or unlicensed spectrum, either mobile or at a fixed location, through**  
13 **wireless facilities;**

14           **(Y) “wireless services provider” means a person that provides wireless**  
15 **services;**

16           **(Z) “wireless support structure” means a freestanding structure,**  
17 **including a monopole or guyed or self-supporting tower, but not including a**  
18 **Utility pole; and**

19           **(AA) “wireline backhaul facility” means a facility used to transport**  
20 **services by wire from a wireless facility to a network.**

21 **§ 5-10-4 Permitted Use; Application and Application Fees**

22           **(A) Permitted Use: Collocation of a small wireless facility or installation,**  
23 **modification or replacement of a utility pole for the collocation of a small**  
24 **wireless facility, as defined herein, is permitted within all zoning districts of**  
25 **the IDO, subject to all applicable use specific standards, and within all rights-**  
26 **of-way as defined by this Article, subject only to the restrictions in Section 5-**  
27 **10-5.**

28           **(B) Permit Required. No person shall place a small wireless facility in**  
29 **any right-of-way, without first filing a small wireless facility application and**  
30 **obtaining a permit therefore, except as otherwise provided in this Article. An**  
31 **applicant may submit a consolidated application for up to twenty-five (25)**  
32 **small wireless facilities so long as they are all of substantially the same type,**  
33 **and on substantially the same types of structures, however no more than one**

1 (1) such consolidated application may be filed within any five (5) business-day  
2 period. The City's denial of one or more small wireless facilities in a  
3 consolidated application shall not delay the processing of any other small  
4 wireless facilities submitted in the same application;

5 (C) Permit Application Form. All small wireless facility applications for  
6 permits filed pursuant to this Article shall be on a form, paper or electronic,  
7 provided by the City.

8 (D) Permit Application Requirements. Applications submitted to the City  
9 for a small wireless facility shall include the following:

10 (1) All relevant information otherwise required for a general  
11 wireless telecommunications collocation permit administered under the IDO;

12 (2) A certification by the applicant that the small wireless facility  
13 or facilities to be collocated conform with the Federal Communications  
14 Commission's regulations concerning radio frequency emissions;

15 (3) A certification by the applicant that unless a delay is caused  
16 by the lack of commercial power or fiber at the site, the collocation must begin  
17 within one hundred eighty (180) days of permit issuance, after which time the  
18 permit shall be void; and

19 (4) A reasonably acceptable showing through the application  
20 materials that the facility or facilities comply with all applicable codes.

21 (E) Routine Maintenance and Replacement. An application shall not be  
22 required for: (i) routine maintenance; and (ii) the replacement of a small  
23 wireless facility with another small wireless facility that is substantially similar  
24 to or the same size or smaller in size and weight and height as long as the  
25 wireless provider that owns the wireless facility notifies the authority and  
26 provides details of the proposed replacement demonstrating the substantial  
27 similarity of the replacement at least ten days before the replacement is made.

28 (F) Information Updates. Any amendment to information contained in a  
29 permit application shall be submitted in writing to the City within thirty (30)  
30 days after the change necessitating the amendment.

31 (G) Application Fees. Application Fees shall be subject to the following  
32 requirements:

1 (1) All applications for permits pursuant to this Article shall be  
2 accompanied by a fee related to processing the application, but shall not  
3 exceed \$500.00 for non-recurring fees, including a single up-front application  
4 that includes up to five (5) small wireless facilities and an additional \$100.00  
5 for each small wireless facility beyond five (5) but not to exceed any  
6 application limits from Section 5-10-4(B).

7 (2) The application fee for the installation, modification or  
8 replacement of a utility pole for the collocation of a small wireless facility that  
9 is permitted in accordance with this Article shall not exceed \$750 for non-  
10 recurring fees per utility pole in the rights-of-way. No additional application fee  
11 shall be required for the small wireless facility to be collocated on the newly  
12 installed, modified or replaced pole.

13 **§ 5-10-5 Permit Applications; Conditions**

14 **(A) Review of Small Wireless Facility Applications.**

15 (1) The City shall accept and process applications for small  
16 wireless facility permits subject to the following:

17 (a) Within thirty (30) days of receiving an application, the  
18 City shall determine and notify the applicant whether the application is  
19 complete. If an application is incomplete, the City shall specifically identify  
20 the missing information in writing. For each item alleged to be missing, the  
21 City must specify the code provision, ordinance, application instruction, or  
22 otherwise publicly-stated procedure that requires the submission of the  
23 information. For incomplete applications, the time for processing the  
24 application shall be tolled by the number of days from the day after the date  
25 when the City properly notifies applicant of the missing documents or  
26 information until the date on which the applicant submits all required  
27 documents or information such as to render the application complete. If the  
28 City fails to notify the applicant of incompleteness within thirty (30) days, the  
29 application is deemed complete.

30 (b) Make its final decision to approve or deny the  
31 application within: (i) sixty (60) days of first receiving the complete application  
32 material for collocation of a small wireless facility on an existing utility pole, or  
33 (ii) ninety (90) days of first receiving the complete application material for the

1 installation of a new utility pole or the replacement of an existing utility pole  
2 with a new utility pole. In extraordinary circumstances where a batch  
3 application causes legitimate overload on the City’s resources, the City and an  
4 applicant may agree to a reasonable extension of this period. An applicant  
5 shall not unreasonably deny any City requests to extend this period; and

6 (c) Advise the applicant in writing of its final decision, and  
7 in the final decision document the basis for a denial, including the provisions  
8 in the specific code or ordinance on which the denial was based, and send the  
9 documentation to the applicant on or before the day the City denies the  
10 application. The applicant may cure the deficiencies identified by the City and  
11 resubmit the application within thirty (30) days of the denial without paying an  
12 additional application fee. The City shall approve or deny the revised  
13 application within thirty (30) days of receipt of the amended application. The  
14 subsequent review by the City shall be limited to the deficiencies cited in the  
15 original denial.

16 (2) If the City fails to act on an application within the review period  
17 prescribed in subsection (1)(b) above, this inaction shall constitute a “failure  
18 to act” under Section 332(c)(7)(B)(v) of the federal Telecommunications Act  
19 and presumptive prohibition of services within the meaning of Section  
20 332(c)(7)(B)(i)(II) and applicant may seek remedies for these violations.

21 (3) The City may deny a proposed collocation of a small wireless  
22 facility on an existing or modified pole, the installation of a new utility pole or  
23 the replacement of a an existing utility pole for the collocation of a small  
24 wireless facility, where the proposed small cell facility:

25 (a) Materially and demonstrably interferes with public  
26 safety, such as the safe operation of traffic control equipment;

27 (b) Materially and demonstrably interferes with sight lines  
28 or clear zones for transportation or pedestrians;

29 (c) Materially interferes with the Americans with Disabilities  
30 Act of 1990 or similar federal or state standards regarding pedestrian access  
31 or movement;

1 (d) Fails to comply with applicable codes; including  
2 requirements imposed upon small wireless facilities located in design overlay  
3 zones and/or historic districts;

4 (e) Does not comply with objective, reasonable and  
5 technically feasible design, aesthetic, spacing, placement, and/or construction  
6 standards for small wireless facilities as adopted, published, and administered  
7 by the City in any form now or in the future;

8 (f) Does not comply with reasonable stealth or  
9 concealment standards for utility poles as adopted, published and  
10 administered by the City in any form now or in the future;

11 (g) Due to ground-mounted equipment, impedes pedestrian  
12 movement on any sidewalk or walkway or otherwise diminishes a sidewalk's  
13 width;

14 (h) Is proposed within a right-of-way location along a  
15 roadway that is fifty-foot wide or less, as measured from curb to curb, and  
16 fronted on at least one side by a residential use, or an IDO zone authorizing  
17 residential uses, unless the applicant demonstrates that placement of the  
18 small wireless facility at such a location is necessary to fill a significant gap in  
19 service and no reasonable alternatives exist; and

20 (i) Is proposed on a new utility pole or wireless support  
21 structure within a right-of-way where the applicant has not adequately  
22 explained why it could not use an existing or replacement utility pole or  
23 wireless support structure either owned by the City or by a third-party.

24 (4) Under its general authority the City may at any time, and  
25 otherwise specifically reserves its right under federal law to, impose design,  
26 aesthetic, spacing, placement, and/or construction standards for small  
27 wireless deployments.

28 (B) Permit Notice; Conditions.

29 (1) The City may, at its discretion and prior to final approval  
30 (subject to the shot clock limitations of Section 'A' above) provide or require  
31 the applicant to provide, public notice of the proposed small wireless facility  
32 in accordance with the notice provisions of the IDO, notifying interested  
33 persons of the opportunity to submit written comments on the application to

1 the City. The City shall forward such written comments to the applicant within  
2 three (3) days of their receipt, and the applicant shall respond to any such  
3 comments. The applicant's failure to respond is grounds for the application  
4 being deemed incomplete by the City.

5 (2) The City may condition its approval on a requirement that a  
6 utility pole or wireless support structure be replaced before an application for  
7 a collocation is approved if the City determines that such a replacement is  
8 required by an applicable code or law.

9 § 5-10-6 Small Wireless Facilities in the ROW; Maximum Height; Other  
10 Requirements

11 (A) Maximum Size. Small wireless facilities, and new or modified utility  
12 poles for the collocation of small wireless facilities may be placed in the  
13 rights-of-way pursuant to this Article subject to the following requirements:

14 (1) Each new or modified utility pole installed in the rights-of-way  
15 shall not exceed the greater of:

16 (a) Ten percent in height above any existing utility pole in  
17 the rights-of-way in place as of the effective date of this Article located within  
18 500 feet of the new pole in the same rights-of-way; or,

19 (b) Fifty (50) feet above ground level.

20 (2) New small wireless facilities in the rights-of-way may not  
21 extend existing structures on which they are located to a height of more than  
22 fifty feet or by more than ten percent, whichever is greater:

23 (B) Zoning. Any wireless provider that seeks to install, modify, operate  
24 or replace a utility pole in the rights-of-way that exceeds the height or size  
25 limits contained in this section, shall be subject to any applicable zoning  
26 requirements.

27 (C) Decorative Poles. A wireless provider shall be permitted to replace  
28 a decorative pole when necessary to collocate a small wireless facility, but  
29 only where the replacement pole conforms to the design aesthetics of the  
30 decorative pole being replaced and any other design applicable design  
31 requirements for the area.

32 (D) Underground District. The City may deny a request to install,  
33 replace or modify a utility pole in areas requiring underground utilities. The

1 wireless provider is permitted to seek a waiver of the undergrounding  
2 requirements for the placement of a new utility pole to support small wireless  
3 facilities. Notwithstanding anything contained in this paragraph to the  
4 contrary, any City requirement that *all* wireless facilities be deployed  
5 underground would amount to an effective prohibition given the propagation  
6 characteristics of wireless signals.

7 (E) Historic and Design Districts. The City may require reasonable,  
8 technically feasible, non-discriminatory and technologically neutral design or  
9 concealment measures and reasonable measures for conforming to the  
10 design aesthetics of a design district or Historic District. Any such design or  
11 concealment measures may not have the effect of prohibiting any provider's  
12 technology; nor may any such measure be considered part of the small  
13 wireless facility for purpose of the size restrictions in the definition of small  
14 wireless facility.

15 § 5-10-7 Effect of Permit

16 (A) Authority Granted. No Property Right or Other Interest Created. A  
17 permit from the City authorizes an applicant to undertake only certain  
18 activities in accordance with this Article, and does not create a property right  
19 or grant authority to the applicant to impinge upon the rights of others who  
20 may already have an interest in the rights-of-way.

21 (B) Permit Duration. Any work described in a permit granted pursuant  
22 to this Article shall be completed within one hundred eighty (180) days of the  
23 Permit issuance date unless the City and applicant agree to extend this period  
24 due to delay caused by the lack of commercial power or communications  
25 facilities. Subject to applicable relocation requirements and applicant's right  
26 to terminate a permit at any time, a permitted location is valid for a period of  
27 ten (10) years, and must be renewed for successive ten-(10) year terms so  
28 long as the wireless provider is in compliance with the other requirements in  
29 this Article as of each extension date.

30 § 5-10-8 Removal, Relocation or Modification of Small Wireless Facility in the  
31 ROW.

32 (A) Notice. Within ninety (90) days following written notice from the  
33 City, wireless provider shall, at its own expense, protect, support, temporarily

1 or permanently disconnect, remove, relocate, change or alter the position of  
2 any small wireless facilities within the rights-of-way whenever the City has  
3 determined that such removal, relocation, change or alteration, is reasonably  
4 necessary for the construction, repair, maintenance, or installation of any City  
5 improvement in or upon, or the operations of the City in or upon, the rights-of-  
6 way.

7 (B) Emergency Removal or Relocation of Facilities. The City retains  
8 the right and privilege to cut or move any small wireless facility located within  
9 the rights-of-way of the City, as the City may determine to be necessary,  
10 appropriate or useful in response to any public health or safety emergency. If  
11 circumstances permit, the City shall notify the wireless provider and provide  
12 the wireless provider an opportunity to move its own facilities prior to cutting  
13 or removing a facility and shall notify the wireless provider after cutting or  
14 removing a small wireless facility.

15 (C) Abandonment of Facilities. Upon abandonment of a small  
16 wireless facility within the rights-of-way of the City, the wireless provider shall  
17 notify the City of its intention to discontinue use of a small wireless facility or  
18 utility pole. The notice shall inform the authority of the time and the way in  
19 which the small wireless facility or utility will be removed. The wireless  
20 provider is responsible for the costs of the removal. The authority may require  
21 the wireless provider to return the property to its pre-installation condition. If  
22 the wireless provider does not complete the removal within forty-five (45) days  
23 after notice, the authority may complete the removal and assess the costs of  
24 removal against the wireless provider.

25 (D) Damage and Repair. The City may require a wireless provider to  
26 repair all damage to the rights-of-way caused by the activities of the wireless  
27 provider and return the rights-of-way to its pre-damage condition according to  
28 the City's requirements and specifications. If the wireless provider fails to  
29 make the repairs within a reasonable period after written notice, the City may  
30 affect those repairs and charge the applicable party the reasonable,  
31 documented cost of such repairs.

32 § 5-10-9 ROW Rates

1 (A) Annual Rate. A wireless provider authorized to place small wireless  
2 facilities in the rights-of-way shall pay to the City compensation for use of the  
3 rights-of-way in the amount of \$270.00 annually per small wireless facility for  
4 all recurring fees, including any right-of-way access fee and/or fee for  
5 attachment to City-owned utility poles in the right-of-way.

6 (B) Cease Payment. A wireless provider is authorized to remove its  
7 facilities at any time from the rights-of-way and cease paying the City  
8 compensation for use of the rights-of-way.

9 (C) The City may adjust the fees and annual rate, but no more often than  
10 once a year and by no more than an amount equal to one-half the annual  
11 change, if any, in the most recent consumer price index for all urban  
12 consumers for New Mexico, as published by the United States Department of  
13 Labor. The City shall notify all wireless providers who are charged of the pre-  
14 adjusted rate and of any prospective adjustments, and shall make the  
15 adjustment effective sixty-days or more following such notice. These  
16 limitations on the frequency and amount of annual fee increases do not apply  
17 if the City seeks an amendment, pursuant to Section 5-10-11 of this ordinance  
18 and to Federal Communications Order 18-01333, to adjust right-of-way rates to  
19 recover the City's reasonable costs of maintaining and managing the rights-of-  
20 way and the structures in the rights-of-way and any other costs of  
21 administering this Ordinance.

22 § 5-10-10 Attachment to City Utility Poles in the ROW

23 (A) Collocation on City Poles. Small wireless facilities may be  
24 collocated on City utility poles pursuant to this Article. No person will be  
25 permitted an exclusive arrangement to attach to city poles.

26 (B) Make-Ready. The rates, fees, terms and conditions for the make  
27 ready work to collocate a small wireless facility on a city utility pole must be  
28 nondiscriminatory, competitively neutral, comply with this Article and be  
29 subject to the following:

30 (1) The City or any person owning, managing, or controlling the  
31 city poles shall provide a good faith estimate for any make-ready work  
32 necessary to enable the pole to support the requested small wireless facility,

[Bracketed/Underscored Material] - New  
[Bracketed/Strikethrough Material] - Deletion

1 including pole replacement if necessary, within sixty (60) days after receipt of  
2 a completed request.

3 (2) The City or any person owning, managing, or controlling the  
4 city poles shall not require more make-ready work than required to meet  
5 applicable codes or industry standards. Fees for make-ready work shall not  
6 include costs related to pre-existing for prior damage and non-compliance.  
7 Fees for make-ready work including any pole replacement shall not exceed  
8 actual costs or the amount charged to others for similar work and shall not  
9 include any consultant fees or expenses.

10 § 5-10-11 Regulations and Amendments; and Compliance with Laws.

11 (A) The City may at any time under its general authority amend the  
12 provisions of any ordinance, and will endeavor to so amend this Article as  
13 necessary in order to remain consistent with any federal laws, regulations, or  
14 orders now or in the future, as well as to bring it into compliance with any  
15 court orders related to the same; and will further endeavor to amend this  
16 Article as may be necessary in order to manage its rights-of-way or to recover  
17 the reasonable costs of maintaining and managing its rights-of-way and the  
18 structures in the rights-of-way and any other costs of administering this  
19 Article.

20 SECTION 2. COMPILATION. Section 1 of this Article shall amend, be  
21 incorporated in and made part of the Revised Ordinances of Albuquerque,  
22 New Mexico, 1994.

23 SECTION 3. EFFECTIVE DATE. This Article shall take effect five (5) days  
24 after publication by title and general summary.

# City of Albuquerque

## Office of the City Clerk

Timothy M. Keller, Mayor

Katy Duhigg, City Clerk

### Interoffice Memorandum

December 4, 2018

To: CITY COUNCIL

From: Camille Cordova, City Clerk Executive Assistant

Subject: BILL NO. F/S O-18-27; ENACTMENT NO. O-2018-026

I hereby certify that on November 30, 2018, the Office of the City Clerk received Bill No. F/S O-18-27 as signed by the president of the City Council, Ken Sanchez. Enactment No. O-2018-026 was passed at the November 5, 2018 City Council meeting. Mayor Keller did not sign the approved Ordinance within the 10 days allowed for his signature and did not exercise his veto power. Pursuant to the Albuquerque City Charter Article XI, Section 3, this Ordinance is in full effect without Mayor's approval or signature. This memorandum shall be placed in the permanent file for Bill No. F/S O-18-27.

Sincerely,

  
\_\_\_\_\_  
Katy Duhigg  
City Clerk
