(.5) No publishers' box shall be placed or maintained in any space so as to reduce the width of the pedestrian passageway on the sidewalk to less than 4 feet.

(.6) [No two publishers' boxes displaying or offering the same publication for sale or distribution may be placed or maintained within thirty (30) feet of one another, unless such publishers' boxes are across the street from one another; provided, however, that no more than three publishers' boxes displaying or offering the same publication for sale or distribution shall be placed or maintained at or within thirty (30) feet of any one intersection.] *No two publishers' boxes displaying or offering the same publication for sale or distribution may be placed at the same intersection unless such publishers' boxes are located on separate quadrants of the intersection. No publisher may display or offer more than three of the same publication for sale or distribution at any intersection.*

(.7) If no corral exists at [a location] *an intersection* where a publishers' box will be placed, all publishers boxes at that location must be kept a minimum of eighteen (18) inches from, and parallel to, the edge of the curb, with the publishers box opening facing toward the sidewalk and away from the curb; provided, however, that the Department may permit, by regulation, a different distance from the curb or a different orientation, if consistent with public safety and pedestrian convenience.

(5) Permits and Fees. The proof-of-permit shall be affixed to the top of the publishers' box, so that it may be viewed and read while standing in front of the publishers' box.
