AN ORDINANCE AMENDING THE COUNTY CODE AND THE UNIFORM SEWER ORDINANCE RELATED TO THE DEFERRAL OF DEVELOPMENT IMPACT FEES

The Board of Supervisors of the County of San Diego ordains as follows:

Section 1. The Board of Supervisors finds and determines that San Diego County has seen a decline in building activity and there is a need to stimulate the local economy. It is the purpose of this ordinance to defer the payment of transportation impact fees, park lands dedication ordinance fees, and specified drainage and sewer connection fees in order to stimulate the economic recovery.

Section 2. Section 68.205 of the County Code is amended to read as follows:

SEC. 68.205. PERMIT FOR MAKING BUILDING SEWER CONNECTIONS – FEE.

(a) It shall be unlawful for any person other than a plumber or homeowner licensed by the County to make a connection between any sewer service lateral and any building sewer upon or within private property in a Sanitation District; and before any such licensed plumber or homeowner may make any such connection between a sewer service lateral and a building sewer within such Sanitation District he shall obtain a Wastewater Discharge permit authorizing the connection to be made. Any such connection must be made to the sewer prior to the installation of any plumbing fixtures discharging into the building sewer.

A plumber or homeowner desiring a permit to make a connection to a sewer service lateral or trunk line sewer shall file with the Department an application in writing on a form furnished and specified by said Department. The application shall include the name of the plumber or homeowner, the name of the owner of the premises on which the work is to be performed, the legal description of the property on which the work is to be performed, or in lieu of such legal description the official street and number of the premises; or, if there be no official street number, a street number recognized by the Department, a sketch or diagram showing the location of the premises. The applicant shall attach to the application a plat showing the location of existing trunk lines and laterals adjacent to the property upon which the work is to be done, and showing the place where it is desired to connect to the sewer service lateral or trunk line sewer.

Before a Wastewater Discharge permit shall be issued, all applicable fees, rates and charges imposed by the Sanitation District shall be paid to said Department, except as specified in subsection (b) below. No Wastewater Discharge permit shall be issued unless the application is first approved by said Department.

(b) Notwithstanding subsection (a) above, the payment of a Capital Facility Capacity Fee (as defined in Section 2.2 of Article 2 of Part I of Section IV of the San Diego County Uniform Sewer Ordinance, Ordinance No. 9103 N.S.) in connection with residential tracts and commercial building permits may be deferred and paid prior to or at the time of scheduling a final building inspection, if the applicant executes an agreement with the County for a fee deferral on or before June 30, 2013.

Section 3. Section 77.209 of the County Code, within the Transportation Impact Fee (TIF) Ordinance, is amended to read as follows:

SEC. 77.209. PAYMENT OF FEES.

(a) The fees required pursuant to this Division are intended to mitigate cumulative traffic impacts and shall be paid to the County as a condition of approval of a development permit, including a building permit. For development projects that require both discretionary and building permits, the fees shall be paid no later than time of building permit issuance. If the fee is paid prior to the time of building permit issuance and the amount of the fee increases, then the additional fee amount must be paid before the building permit is issued. If the fee is paid prior to time of building permit issuance and the amount of the fee is reduced, then at the time the building permit is issued, a TIF refund will be provided to the applicant. Once a building permit is issued, the amount of the fee is set and will not be adjusted by subsequent increases or decreases to the TIF rates. In the case of discretionary permits that will not involve a building permit but which will generate additional traffic, payment of the fee shall be recommended as a condition of permitting to the decision-making body that would approve such permit.

(b) Notwithstanding subsection (a) above, the payment of transportation impact fees in connection with residential tracts and commercial building permits may be deferred and paid prior to or at the time of scheduling a final building inspection, if the applicant executes an agreement with the County for a fee deferral on or before June 30, 2013.
