

ORDINANCE NO. 10733 (NEW SERIES)

**ORDINANCE AMENDING THE SAN DIEGO COUNTY CODE OF REGULATORY
ORDINANCES TO ADJUST DEPARTMENT OF ENVIRONMENTAL HEALTH AND QUALITY
REGULATORY PROGRAM FEES AND ASSOCIATED ORDINANCE REVISIONS**

The Board of Supervisors of the County of San Diego ordains as follows:

Section 1. Purpose.

This ordinance adjusts fees payable to the Department of Environmental Health and Quality (DEHQ) during Fiscal Year 2020-21 (and continuing until amended) as directed by the Board of Supervisors on April 7, 2021 in order to continue to meet program objectives, provide a level of service expected by stakeholders and customers, and fully recover costs except in three cases: (1) where alternative funding has been used to offset increases to permit fees (2) where the Board of Supervisors (Board) has previously directed the waiver or discounting of fees; and (3) for small water systems fees, during the transition of that program to State oversight. Where fees are set below DEHQ expected costs, supplemental non-fee revenues are expected to be available to make up those deficits. Annual adjustment to fees are planned, to implement the Department's commitment to the Board to make recovering costs a regular part of business, while providing stakeholders an opportunity to plan for fee adjustments.

Associated ordinance revisions codify that organized camps are regulated by the County pursuant to State law, clarify or conform definitions, remove certain requirements for hazardous materials reporting in CERS that exceeded State requirements, and clarify conditions for fee refunds consistent with Board policy.

Section 4. Section 61.107 of the San Diego County Code is hereby amended to read as follows:

A "C" grade shall represent a score less than 80 percent. The Department shall issue an alphabetical grade card to each food facility graded during an inspection pursuant to this section and shall provide the permit holder with a list of deficiencies found during the grading inspection. If the Department determines from the inspection, however, that the facility presents an imminent health hazard that warrants immediate closure the Department shall not issue the facility a grade card.

(b) The Department may order a food facility permit holder receiving a grade of "B" or "C" to submit to subsequent re-grade inspections within 30 days, until the facility receives an "A" grade. The Department may also order a permit holder to correct a deficiency found during an inspection in less than 30 days. The permit holder shall pay the Department a re-grade fee at the time of each re-grade inspection, as specified in Title 6, Division 5, Section 65.107 (d).

(c) The Department may use information obtained during an inspection pursuant to this section to temporarily suspend a food facility permit and order a food facility to immediately close due to an imminent health hazard that cannot be immediately corrected. The Department may also use the information obtained during an inspection to modify, suspend or revoke the food facility's permit.

(d) If the Department determines that a food facility should be ordered to show cause at a hearing why its permit should not be suspended or revoked, the Department may require the facility to post a specified alternative notice instead of a grade card, until that hearing process is concluded and a decision concerning the permit is rendered.

(e) If the Department determines that the public should be informed of temporary conditions affecting a food facility, such as a boil water order or a closure order for only a portion of the facility, the Department may require the facility to post a specified notice, and may direct that such posting be maintained either instead of or in addition to posting a grade card.

(f) Violations of the requirements of this code related to food facility grading shall be subject to the penalties and procedures set out in Division 8 of Title 1 of this code.
